

GWRYCHOEDD - nodwedd annatod o dirwedd Cymru

HEDGEROWS - an integral feature of the Welsh landscape

» Ydych chi am wneud y gorau o wrychoedd ar eich fferm?

Y cam cyntaf yw asesu a chasglu data ar y gwrychoedd presennol ar y fferm a fydd yn eich galluogi i:

- Fesur a monitro unrhyw newid trwy gamau rheoli tir e.e rhoi cynllun cynnal a chadw gwrychoedd amgen ar waith.
- Datblygu strategaethau i gynyddu gwytnwch i newidiadau amgylcheddol a lliniaru newid yn yr hinsawdd. e.e sut i wella'r broses rheoli ymyl caeau i leihau dŵr ffo.

Mae asesiad o wrychoedd Ein Ffermydd wedi'i gynnal a daeth i'r casgliad bod cyfanswm o **159,797 mesurydd llinol o wrychoedd a chanopi coed** ar draws y 15 fferm.

Cyfrifwyd hyn gan ddefnyddio rhif cyfeirnod y gwrych a data cyflwr cychwynnol y gwrych sy'n cynnwys:

- Uchder a lled y strwythur
- Oed
- Statws a chyflwr gan gynnwys canran y bylchau
- Crynodeb rheoli h.y wedi'i ffensio / ffustio / heb ei reoli / wedi aeddfedu gormod
- Goruchafiaeth rhywogaethau
- Coed gwrychoedd a chanopi coed yn y gwrychoedd.

» Want to make the most of hedgerows on your farm?

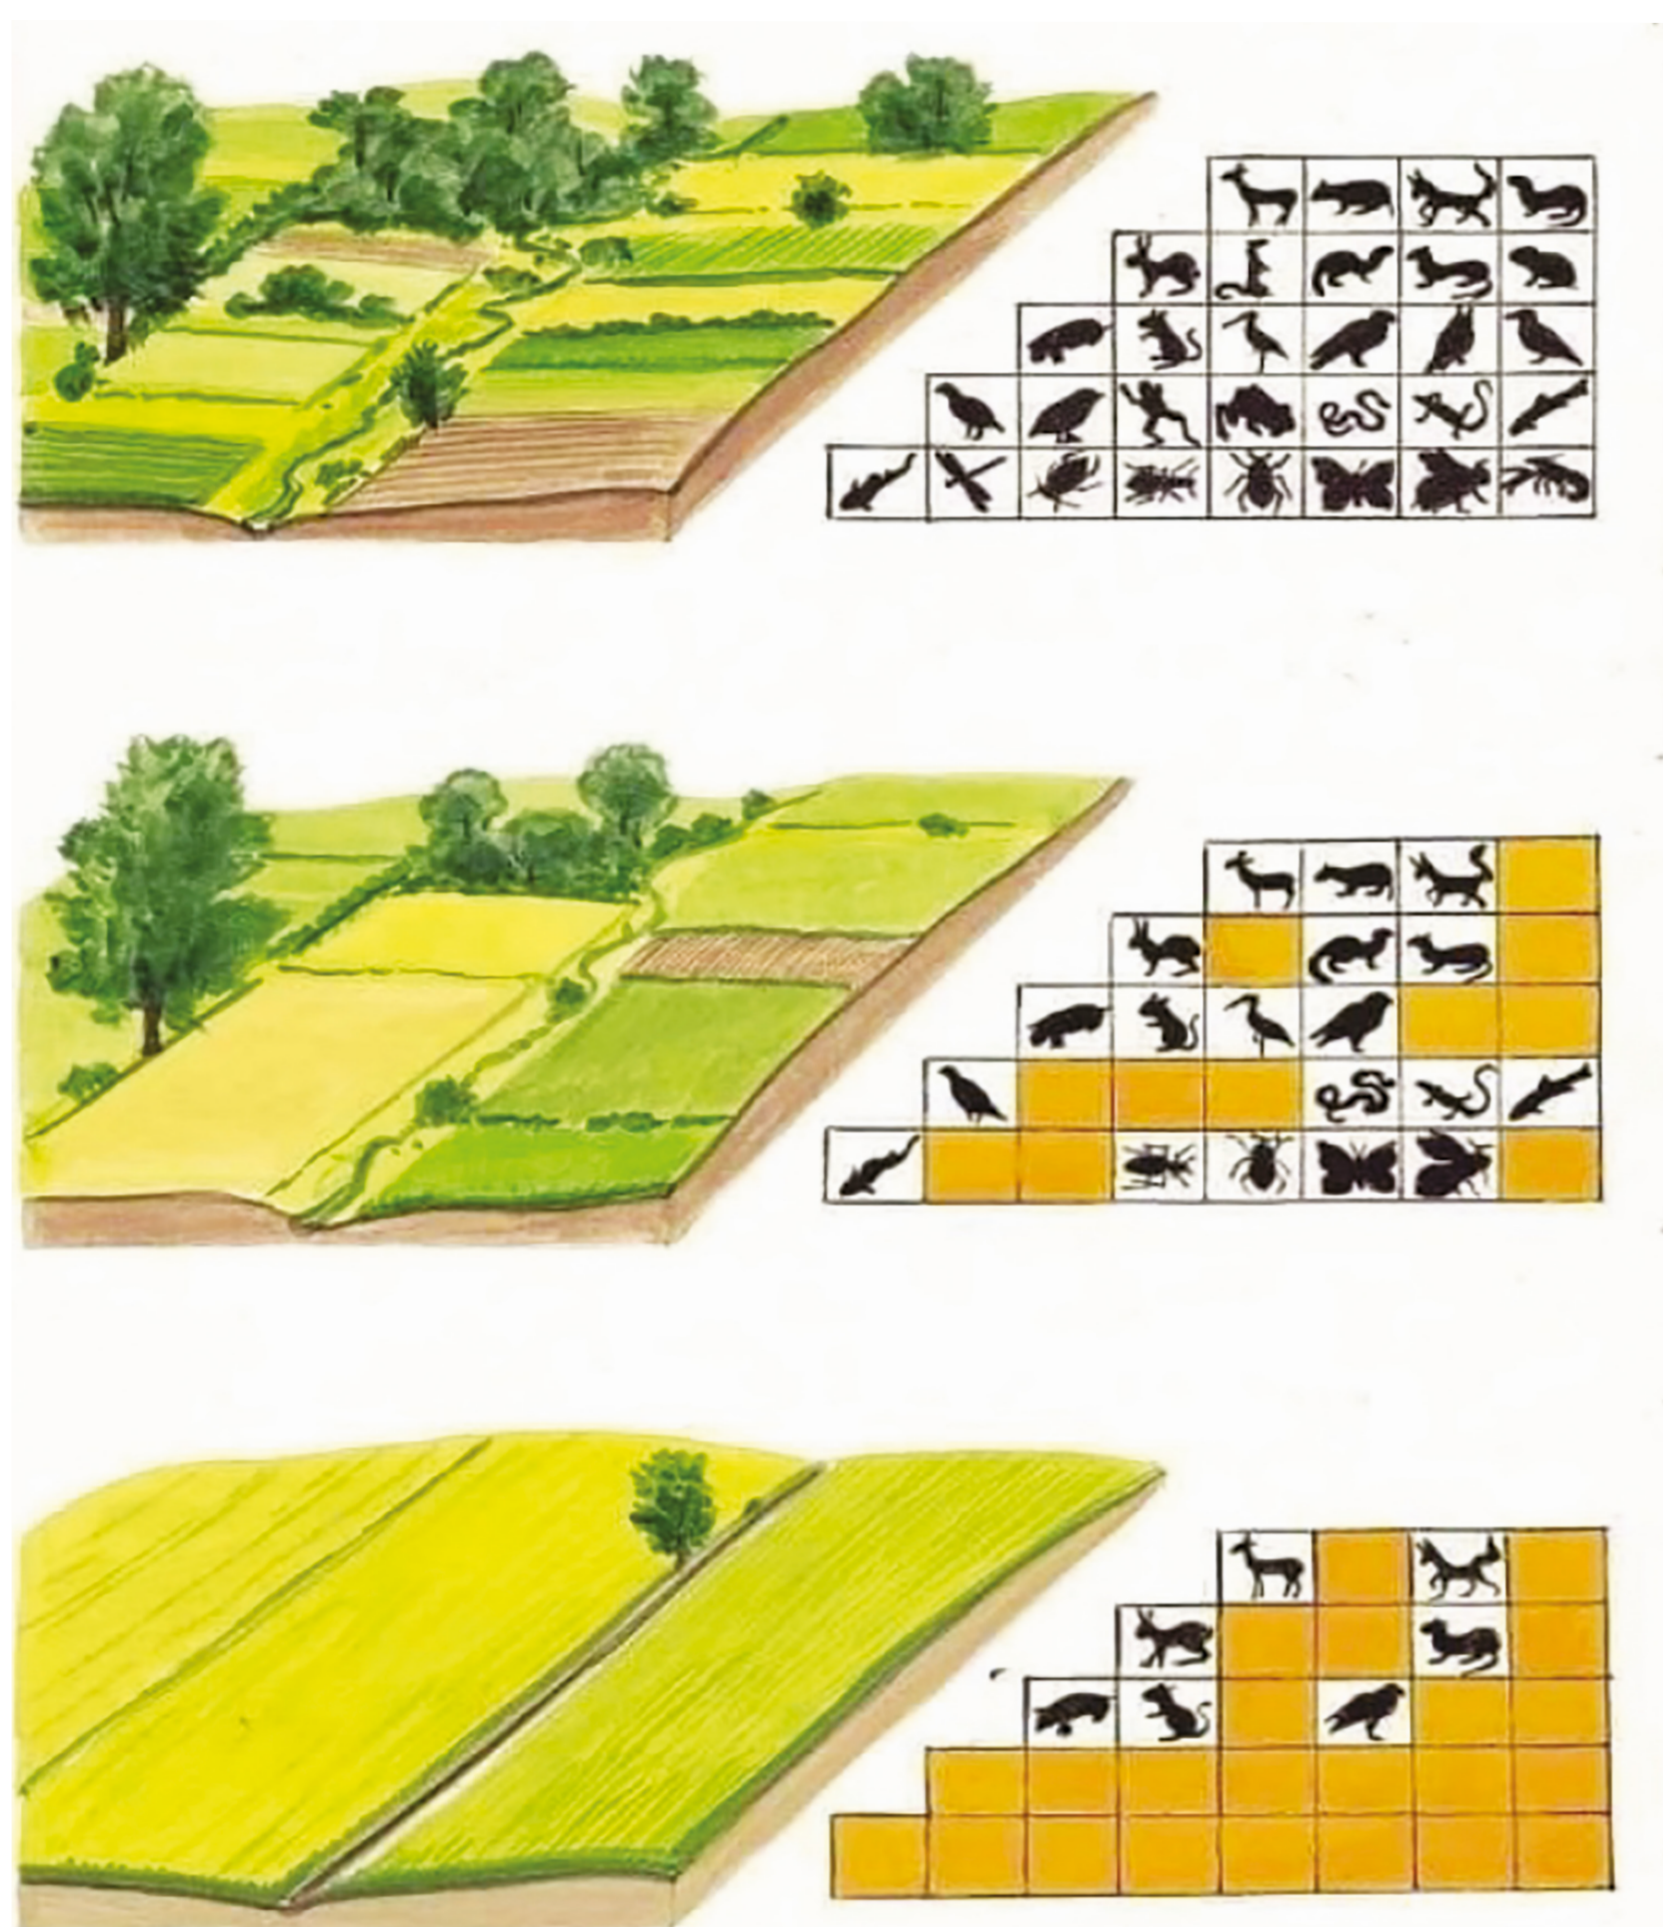

The first step is to assess and collect data on the current hedgerows on farm which will enable you to:

- Measure and monitor any change through land management actions e.g. implementing an alternative hedgerow maintenance plan.
- Develop strategies to increase resilience to environmental changes and mitigate climate change. e.g. how to improve management of field edges to reduce surface runoff.

Our Farms have undergone an assessment of their hedgerows which concluded, a total **159,797 linear metreage of hedgerow and tree canopy** across the 15 farms.

This was calculated using the hedge reference number and initial condition data which includes:

- Structure height & width
- Age
- Status and condition including the percentage of gaps
- Management summary i.e. fenced / flailed / unmanaged / over mature
- Species dominance
- Hedgerow trees and tree canopy percentage in hedge line.

Pan mae lluniau'n well na geiriau!
When pictures speak louder than words!
